

Managing CONGESTIVE HEART FAILURE (CHF)

With Minden Medical Center Home Health Agency

Each year, over 1 million people are admitted to an inpatient setting for heart failure and 27% of patients with heart failure are readmitted within 30 days. Heart failure cannot be cured, but if patients are properly educated and cooperative in following their treatment plan, it is possible they will live many more productive years.

What can Home Health do for CHF patients?

- Observation & Assessment
- Medication Management
- Fluid Intake Education
- Medication Education
(Diuretic Therapy & Electrolyte Replacement)
- Safety Education (Ambulation & Transfer Techniques)
- Weight Monitoring
- Cardiac Assessment
- Disease Process Education
- Education on a Heart Healthy Diet

If you have a newly diagnosed CHF patient or one who needs assistance managing CHF, please call Minden Medical Center Home Health Agency.
