

Home INFUSION THERAPY

With Minden Medical Center Home Health Agency

Home is often the best place for healing. Surrounded by familiar settings, family and friends, you can relax and allow the healing process to begin.

Minden Medical Center Home Health Agency (MMCHHA) provides infusion therapies necessary for treating many types of illnesses. Registered nurses provide direct intermittent care until patients, caregivers and all healthcare providers are confident with the treatment plan. The patient's progress is monitored and regular reports are provided to the patient's physician.

We offer a personal approach to care in the comfort and privacy of the patient's home, avoiding inpatient hospitalization or outpatient ambulatory appointments.

"The treatment my wife has received at home has been very beneficial and we couldn't ask for better care." – Mr. Slack

"It's so convenient to be home without having to push an IV pole around and get tangled up in lines." – Mrs. Slack
