

MINDEN
MEDICAL CENTER

COMMUNITY IMPACT REPORT FOR 2022-2023

At Minden Medical Center, we continue to be excited to bring our community outstanding healthcare services with a focus on delivering those services compassionately. We *always* want you to know we care about you as much as we care for you. There's a saying we live by day-to-day, "People don't care what you know, until they know you care." This simple statement sums up our commitment to service delivery that puts you and your needs first.

In 2022, we opened Minden Family Diagnostics, offering state of the art diagnostic imaging services, Women's Wellness of Minden, a premier women's health facility, WorkFit, an industrial medicine clinic, and expanded Minden Medical Center of Haughton to include primary care, pediatrics, and specialty rotations, all of which will be housed in a new, 15,000 square foot facility, featuring top-of the line equipment, which is projected to open in the third quarter of 2023.

We welcomed Stavan Patel, MD DDS (Oral & Maxillofacial Surgery), Ravali Tarigopula, MD (Pulmonology), Jessica McKenzie, MD (Women's Health) and Kirstin Mosley, MD (Pediatrics) to the Minden Medical Center family, and we are excited about these new additions and services for our community and to see the impact that they will make.

Our vision is clear: we want to create a place where people choose to come for healthcare, providers want to practice, and employees want to work. If we can accomplish those three objectives, then we position ourselves to be successful in completing our mission of "making communities healthier." Minden Medical Center categorizes our service to you in our five pillars of service and excellence: delivering high quality patient care, supporting our physicians, creating an excellent workplace for our employees, taking a leadership role in our communities, and ensuring fiscal responsibility.

JIM WILLIAMS, CEO
MINDEN MEDICAL CENTER

"We continue our commitment to foster a culture of caring, compassion, and safety for our employees, medical staff, patients, and our community.

Thank you for always trusting us to serve you and your families. Thank you for your unwavering support of our team and our mission to make our community healthier."
